No. B/8911 of 1913.

Office of the Surgeon-General with the Government of Bombay:

Poona, 8th July 1913.

From

The Honourable Surgeon-General
H. W. STEVENSON, C.S.I., I. M. S.,
Surgeon-General with the Government of Bombay;

To

The SECRETARY to GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit, for the information of Government, the following report on the Civil Medical Institutions of the Presidency for the year 1912.

Statement A.

2. The total number of institutions open on 31st December 1912 was 715 against 733 on 31st December 1911, a decrease of 18.

3. The decrease was due to the fall in the number of Private non-aided institutions which submitted returns and Railway Institutions. State Public and Special institutions, and Local and Municipal Fund Hospitals and Dispensaries remain practically unchanged in numbers.

4. The supply of dispensaries in the mofussil does not keep pace with the demand. The Government grant for this purpose will be more fully utilized in the current year.

Buildings.

5. The hospitals generally have been kept in good repair. During the year additions or improvements were made as follows:—

Civil Hospital, Kárwár.—Out-door Department completed.

Civil Hospital, Násik.—The Bai Dhankorbai Hospital has been repaired and taken into use, proving a very valuable addition to the hospital.

Jalgaon Civil Hospital was almost completed, also the Nowroji Vakil Hospital at Ahmedabad. Work has been commenced on the new Civil Hospital at Sholápur.

Civil Hospital, Hyderabad.—Marble flooring and Minton tile dados to two wards and a compound wall to the Nurses' quarters.

At other hospitals numerous repairs and minor alterations were carried out to the full extent of the Surgeon-General's discretionary grant.

Statement B.

6. The total number of patients treated during the year was 2,356,118, as compared with 2,191,531 treated in 1911, an increase of 164,587. Of the total treated 59,534 were in-door patients and 2,293,705 were out-door, showing an increase of 3,643 in-door patients and 158,065 out-door over the figures for 1911.

7. Of the in-door patients treated during the year 39,986 were cured, 6,184 were relieved, 4,907 were discharged otherwise and 5,666 died. The ratio of deaths per cent. to the total treated was 9·5 as compared with 8·9 in 1911.

8. The number of beds available was 6,279 against 6,160 in 1911, and the daily average number of patients occupying them was 3,318·9.

9. The average daily attendance of out-door patients was 19,991·7 as compared with 19,418·9 in 1911.

10. The past year has seen no increase in the hospital accommodation in Bombay City. The building of the King Edward VII Memorial Hospital has not yet been commenced. It is expected to afford 200 more beds, but it will not in any way relieve the necessity which exists for an Infirmary and a Tuberculosis Hospital.

Poona has made a start in this direction, and the conversion of the Poona Insane Asylum into an Infirmary will relieve the Sassoon Hospitals of many cases unsuitable for treatment in a general hospital.

Statement C-I.

11. The following table shows the principal diseases among the in-door patients treated during the years 1911 and 1912 and mortality due to each :—

Disease.	1912.		1911.	
	Total treated.	Deaths.	Total treated.	Deaths.
Cholera	735	380	103	30
Dysentery	1,793	273	1,157	189
Leprosy	1,757	170	1,844	126
Malaria	6,727	164	6,380	167
Small-pox	810	187	460	89
Tubercle of the Lung	1,035	369	1,049	355
Other tubercular diseases	1,193	198	966	144
Diarrhœa	1,706	472	1,280	330
Injuries (General and Local)	8,064	560	7,739	544

12. Cholera, Dysentery and Diarrhœa all show a considerable increase. Cholera was widely spread over both Konkan and Deccan. The most notable and encouraging feature in connection with the outbreak is the manner in which belief in the efficacy of Permanganate of Potassium has spread among the people, both for the treatment of their water-supply, and themselves when attacked by the disease. Cholera is chiefly a water borne disease, though no doubt direct infection frequently occurs among members of a family, and in most cases efficient and thorough treatment of a village water-supply with Permanganate, puts an end to an outbreak.

13. The number of cases admitted for Tuberculosis increased from 2,015 with 499 deaths to 2,228 with 567 deaths. The increase is not great and may be ascribed largely to more perfect diagnosis.

14. The formation of the King George V Anti-Tuberculosis League in Bombay during the year gives hope that the public generally are becoming interested and ready to assist in measures and precautions to be taken against the spread of the disease. No proper Tuberculosis Hospital yet exists anywhere in the Presidency and cases of the disease in all stages have to be admitted

into general hospitals for treatment. This is very objectionable, and it is to be hoped that Hospitals solely for the treatment of Tuberculosis may soon be provided by the larger Municipalities.

15. The total number of in-door and out-door cases of small-pox treated was 1,481. Of these 622 were unvaccinated, 612 vaccinated in infancy, 8 vaccinated in later life, 7 vaccinated after infection and 8 re-vaccinated. The vaccinal condition was not known in 224 cases.

Statement C-II.

16. Amongst out-door patients Malaria furnished the largest number, followed by diseases of the Digestive and Respiratory tracts, Diseases of the Eye, Ear and Skin, and General and Local Injuries.

17. The incidence of Malaria during the year was not severe.

Statement D-I and II.

18. The attendance at Police, Canal, Forest and other State special institutions rose from 42,813 in 1911 to 45,842 in 1912.

Statement E.

19. The total number of in-door and out-door patients treated at Private non-aided institutions was 2,042,002 as compared with 1,878,151 in 1911.

Statement F.

20. Of the total patients treated, 16,336 were Europeans and Eurasians, 1,511,097 were Hindus, 692,895 were Musalmans and 132,911 belonged to other classes.

Statement G.

21. 100,255 surgical operations were performed against 92,365 in 1911. They were performed on 100,118 patients with a mortality of 0·56 as compared with 0·46 in 1911.

22. The removal of Tumours and Cysts gave 1,527 operations with 14 deaths. Amputations numbered 745 with 15 deaths as compared with 748 with 22 deaths in 1911. Cataract extractions 1,493. Vesical Calculi were removed by Litholapaxy in 1,208 cases with a mortality of 1·98 per cent. Lithotomy was resorted to in 142 cases of which 17 died.

23. Abdominal operations other than those for diseases peculiar to women numbered 1,474 with 164 deaths, while for diseases peculiar to women the numbers were 151 with 16 deaths, the total number of abdominal operations being 1,625 with 180 deaths. This included 183 operations for radical cure of Hernia and 172 for abscess of the Liver.

24. There were performed 795 obstetric operations with 34 deaths. Operations for conditions peculiar to women other than obstetric and abdominal, numbered 666 with 6 deaths.

25. The surgical work in the hospitals has maintained the high standard to which it has steadily reached, and will bear comparison with that of any group of hospitals.

Statement H.

26. The total income inclusive of the cash balance in hand amounted to Rs. 24,45,845 against Rs. 23,07,618 in 1911. The amount received from Government was Rs. 11,58,199. Local funds contributed Rs. 2,50,561 and Municipal Funds Rs. 4,31,164. The interest on invested capital yielded Rs. 37,848. Subscriptions from Europeans and Indians amounted to Rs. 49,707. Miscellaneous

receipts amounted to Rs. 3,11,717 of which Rs. 91,022 were realized on account of hospital fees and Rs. 1,19,574 were contributed by the several Nursing Associations.

27. The total expenditure amounted to Rs. 22,40,979 against Rs. 21,01,095 in 1911. Deducting from this Rs. 1,58,694 remitted into the Treasury on account of hospital fees, sale-proceeds of unserviceable articles, etc., and Rs. 58,770 invested during the year, the net cost was Rs. 20,23,515. The average cost of each diet was Re. 0-3-5. The percentage of cost borne by Government was 44·5 against 48·9 in 1911.

Statement J.

28. On 1st January 1912 the invested capital stood at Rs. 9,87,815. During the year Rs. 58,770 were invested and securities worth Rs. 16,060 were sold or withdrawn, leaving a balance of Rs. 10,30,525.

I have the honour to be,

Sir,

Your most obedient Servant,

H. W. STEVENSON,

Surgeon-General, I. M. S.,

Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1912.

[Total Population of the Province—27,084,317.]

Class of Civil Hospital and Dispensary.	Number open on 31st December 1911.	Number opened during the year 1912.	Number closed during the year 1912.	Number open on the last day of the year 1912.	Remarks.
1	2	3	4	5	6
I.—State—Public ...	49	...	...	49	
II.—State—Special—					
(i) Police ...	5	...	...	5	
(ii) Forests and Surveys ...	2	...	...	2	
(iii) Canals ...	3	...	...	3	
(iv) Others ...	14	...	...	14	
III.—Local and Municipal Funds ...	272	(*a*) 4	(*b*) 4	272	(*a*) Prabadevi and Gowrabai Dispensaries in Bombay City, Rustumpura Dispensary in Panch Mahâls, Châchro Dispensary in Thar and Párkar. (*b*) Nágothna Dispensary in Kolába, Dorabji Pestonji Dispensary, Mhow, Travelling Dispensary, Thar and Párkar District, and The King Edward VII's Charitable Dispensary, Aden, transferred to Class V.
IV.—Private—Aided ...	14	(*c*) 1	...	15	(*c*) The Lady Dufferin Hospital, Shikárpur, in Sukkur District.
V.—Private—Non-aided ...	324	(*d*) 18	(*e*) 33	309	(*d*) 1 each in Thána and Sátára Agencies and Sholápur, Bijápur, Surat and Aden Districts and the Southern Marátha Country, 3 in Surat and 6 in Panch Mahâls Agencies and 2 in Káthiáwár (*e*) 10 in Ratnágiri, 7 in Mahi Kántha, 5 each in Thána and Poona, 2 in Bombay, 1 each in Poona Agency and Sátára, Ahmedabad and Sukkur Districts.
VI.—Railways ...	50	(*f*) 2	(*g*) 6	46	(*f*) Mátunga and Kalyán Dispensaries on the G. I. P. Railway. (*g*) Tápti Bridge Dispensary, B.-G.-J.-P. Railway Dispensaries (2) Bhávnagar Para, Railway Dispensary Jámnagar, Railway Dispensary Junágad, and N. W. Railway Dispensary, Rohri.
Total ...	733	25	43	715	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State' when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries, whether maintained by State railways or others.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.

Annual Reports.—
Report on civil hospitals and dispensaries in the Bombay Presidency for the year 1912.

No. 5796.

GENERAL DEPARTMENT.

Bombay Castle, 6th August 1913.

Letter from the Surgeon General with the Government of Bombay, No. B.-9452, dated the 18th July 1913:—

"I have the honour to forward my annual report on the civil hospitals and dispensaries of the Bombay Presidency for the year 1912, and to state, for the information of Government, that there is nothing in it the immediate publication of which can be considered of doubtful expediency."

RESOLUTION.—The report should be published.

J. L. RIEU,
Secretary to Government.

To

The Surgeon General with the Government of Bombay,
The Sanitary Commissioner for the Government of Bombay,
The Commissioner in Sind,
The Commissioner, N. D.,
The Commissioner, C. D.,
The Commissioner, S. D.,
All Collectors, including the Collectors in Sind and the Deputy Commissioner, Upper Sind Frontier,
The Municipal Commissioner for the City of Bombay,
The Accountant General,
The Compiler, General Administration Report for 1912-13,
} With copies of the report.
The Private Secretary to His Excellency the Governor,
The Government of India (by letter No. 5797, dated the 6th August 1913),
The Under Secretary of State for India (by letter).
